Re: Variance Request
Jefferson Parish Sanitary Landfill
D-051/0090/P-0297
Avondale, Louisiana

Dear Mr. Strong:

Waste Management of Louisiana, LLC, on behalf of Jefferson Parish Department of Solid Waste and Environmental Impact, is submitting this request for a variance to accept Asbestos Contaminated Materials generated outside Jefferson Parish from the ongoing West bank Remediation Project. Since a permit modification has been submitted to expand the service area of the landfill, it was anticipated the modification approval would be received in time to accept the waste. However, based on our discussions with the remediation contractor, it was requested that a variance request be submitted so as not to hinder the project schedule. The Parishes from which the materials will be accepted are Orleans and Plaquemines Parishes. Please note this request applies only to this project. Other waste materials from outside Jefferson Parish will not be accepted until approval of the aforementioned modification is received.

Since the projects in these parishes are awaiting your approval, we would greatly appreciate your response as soon as possible. If you have any questions or require clarification, please call Amanda Sullivan at 504/436-0152 or Rick Buller at 504/736-6103.

Sincerely,

Amanda Sullivan
Site Engineer
